

Asset Management Services

Omni's Asset Management division focuses on operation, control and oversight of your company's valuable properties. Omni addresses the many facets of property ownership to provide property owners peace of mind when it comes to their property so that they can focus on the business of building their business. Our team works with the owner to understand their specific needs and tailors a property management solution to meet those needs.

Our licensed real estate brokers are involved with the property management process for each client ensuring that empty assets are marketed to the community through our brokerage services.

Omni's years of experience in the real estate industry provide us with a support team that gives us the expertise to handle everything from arranging a snowplow contract to assisting in local permitting for capital improvements.

Our services include:

- Tenant sourcing, screening and management
- Lease development and management
- Arrange for and manage vendors for all services
- Emergency service 24 hours a day 7 days a week
- Prepare and monitor annual budgets
- Manage all financial transactions
- Provide monthly, quarterly and/or annual reporting
- Regular site visits
